

# RICH McCANN

Rich McCann is a devoted husband and family man. He has been a resident of the Conejo Valley since 1968. He and his wife Cathy have two sons, Sean and Bryan, who are both in college. Rich had been working in the aerospace industry for over 40 years, and in December 2019, accepted a new position when he was diagnosed with pancreatic cancer that had also spread to his liver. Rich regretfully had to decline the offer in order to fight the cancer that had invaded his body. After a few hospital stays, Rich started his chemo therapy that went well by shrinking the cancer cells. However, 11 treatments later, the chemo was no longer working. In July 2020, his doctor put him on another type of chemo cocktail and he has just completed his 6th treatment. Since the cancer is stage 4 and is not curable, Rich will most likely have chemo therapy for the rest of his life. Rich and his family are so very grateful for the love and support of family & friends. They are also very thankful to the Michael P. Nosco Foundation and were thrilled to find out about his nomination. Rich and his entire family are very honored to have been chosen as a 2020 recipient.
